Speech & Language Therapy provision at The Heights Academy

Dear Parent/Carer,

Petals Therapy is delighted to be working in partnership with The Heights Academy to provide Speech and Language Therapy support.

Our therapists work with schools and pupils through a Universal, Targeted, and Specialist approach.

As part of our commitment to supporting pupils, our team will work closely with key school staff to share advice, strategies, and resources within classrooms. This is known as Universal Provision. During this stage, therapists may:

- Observe classroom environments and activities
- Offer general advice to staff to support the whole class
- Suggest strategies or resources to enhance learning and participation

At this stage, no individual therapy or assessment is provided, and no personal pupil records are created or stored by us. If you are happy for your child to be included in these general classroom support activities, no action is required. If you would prefer your child **not** to be included in Universal Provision, please inform your SENCo, April Newton at your earliest convenience.

If your child is identified by the school or our therapist, as requiring more Targeted or Specialist support, we will provide you with consent forms to complete before any assessments or interventions take place. This ensures you are fully informed and involved in the process from the outset.

If you would like a copy of our Privacy Policy, which outlines our GDPR practices, this is available on our website: <https://petalstherapy.co.uk/privacy-policy>

If you would like any further information, please do not hesitate to contact us via the school office.

Yours faithfully,

Hayley Morley
Director, Petals Therapy
